Subject: Resolution of FS Elements Check-in comments
Date: 07/25/2011 01:52 PM

Chip and Kristine,

I just finished reviewing the EPA FS Elements Check-in comments and draft LWG responses. I am concerned that for some very important comments, they take the position that even discussing the resolution of those comments will result in a delay of FS delivery. Has a meeting/call been scheduled to discuss comment resolution? If so, I'd like to be on the phone for that if possible. I would also urge EPA not to allow a slip in FS delivery deadline simply because there were some potentially unexpected comments that the LWG must now address.
